One possibility for a future event to raise funds is Boosterthon. This is completed by company that will run the event. The focus is on getting pledges for a physical event the students will participate in during the school day. Here is a link for more information: https://boosterthon.com/. Also, there are current discussions occurring regarding a change to the room parent procedure. More information to come later. 2. WEBSITE: This is a work in progress. The template has been purchased. The goal is to have a large portion completed by Spring Break, with completion by the end of this school year. Pictures are being collected and added to the new webpage to make a personalized impact. 3. Accreditation: Mrs. Hayslip included this on a memo. This occurred on January 25th. Professional Learning Communities covering math, student engagement and catholic community were created last fall and the teachers are actively participating in one of the three topics. A report will be received in a few weeks following the accreditation visit. 4. Technology Committee: This will be established, and volunteers will be selected. The committee will review where to go with St. Aloysius' technology, how to get there and how to fund the technology ideas.
